Quote for the month:

THUS SAITH
THE LORD,
GOD WILL NOT DEAL
WITH HIS CHURCH
TILL SHE COMES BACK
TO THE HOMELAND,
THE MESSAGE OF
THE HOUR.

Red William Branham

GABRIEL'S INSTRUCTIONS TO DANIEL
JEFF. IN DA 1-44 SUNDAY 61-0730M

PAPUA NEW GUINEA

MISSION UPDATE

TESTIMONY OF HEALING

Simple Faith.

In September and October of 2016, we had some ministers meetings over a period of 2 weeks in Goroka in Papua New Guinea.

Even though the meetings were mainly for ministers, any brethren that wanted to attend could.

One of the pastors (Bro' Nicolas Angae) brought his teenage daughter to be prayed for. She had been afflicted by a paralysis from her waist down and had become incapable of walking. All the medical experts had no idea as to the cause of her problem so nothing could be done for her. She had to be carried everywhere by her sister and mother and father and as you can see in the photo provided, she could only sit in a chair after being placed in it.

Nearing the end of the meetings it was arranged for her to be carried to the front of the church where all the brothers would pray for her. It was told to her that the Lord could do one of two things. He could either do a miracle and she could get up immediately and walk away, or He would heal her over a period of time.

She was told that the Lord was the High priest of her profession or confession. That in the same way as the Lord created the heaven and the earth, the creation came around those words He spoke. So if she spoke that she was healed, the healing would materialize around her confession. She understood this principle of God.

After she was prayed for she still could not stand up, so she knew that over a period of time upon her continued confession. Even though she was a sixteen year old, there was something about this young sister that was very faithful to the word of God. After the meetings she was taken back home still unable to walk.

At Christmas time Bro' Nicolas rang me to wish me a Merry Christmas and a happy new year. He then told me about his daughter (Sister Rachel) that had been prayed for. She was now walking with the assistance of walking sticks and she was believing for a complete restoration. Again she was encouraged to keep confessing her healing so that she could walk normally again.

Last week (20 - 2 - 2017), Bro' Nicolas rang me to say that his daughter was now walking unassisted and was back at school and is able to cook and wash clothes like normal again. The doctors cannot fathom what has happened to her.

He would heal her

But there has also been a spiritual change in Sister Rachel. She is the one in her family that gets everybody together to pray to the Lord. She loves praying and she is deeply into the

messages that Bro' Branham preached. She understands why the Lord allowed her to go through this time of trouble so that she could know Him in the power of His resurrection. This is a simple young lady that lives in the back-blocks of PNG in a bush house. The Lord does not need our minds complicated with intellectual faith. She had a mountain that needed to be moved, and He moved it using her faith in Him.

MATTHEW 21:21

Jesus answered and said unto them, Verily I say unto you, If ye have faith, and doubt not, ye shall not only do this which is done to the fig tree, but also if ye shall say unto this mountain, Be thou removed, and be thou cast into the sea; it shall be done. And all things, whatsoever ye shall ask in prayer, believing, ye shall receive.

To God be the glory.

Shalom.

Bro' Adrian Gray.

Bro Nicholas' Testimony (Father of Racheal)

LAST year June 2016 Rachel felt sick. We took her to Kerowagi rural health center. She was hospitalized for 3 weeks. From there she was transferred to Kundiawa general hospital. She was completely paralyzed from head to toe. We stayed in the hospital for two months. The doctors there couldn't identify the sickness or the cause. They told me to just take her back home fearing that she might contract another sickness from other patients so we took Racheal home. However, she still didn't walk.

At the recent Goroka message meetings we decided to take Racheal along. At the meeting Racheal was prayed for. From then on Racheal began to move her limps and hands and started walking along a rail we fixed in front of our home. She left the rail so we gave her a crutch for support eventually she left the crutch and now she is back in school doing grade seven in the same school I am teaching in. The Lord has healed Racheal and we are very thankful to the Lord for the healing. We give God the Glory.

David Shearer.

God and History.

Noah's Ark.

Location of Noah's Ark.

Coordinates of one end of this object. N 39.26.475 E 44.14.108

Many expeditions have attempted to locate Noah's Ark, including a number that claimed they found it, but have been shown to be frauds. The Bible said... *"And the ark rested in the seventh month, on the seventeenth day of the month, upon the mountains of Ararat."* Genesis 8:4. Verse 5 continues, *"And the waters decreased continually until the tenth month: in the tenth month, on the first day of the month, were the tops of the mountains seen."* At the time the Ark came to rest, Mt Ararat was not the volcano it is today. The reason for this statement is that the mountains were not visible until 2 and a half months later, but from the Ark's resting place today, Mt Ararat, standing 16945ft above sea level, can be clearly seen. From space Mt Ararat is clearly more recent than the mountains it is built on. i.e. The surrounding mountains are sedimentary, Mt Ararat is volcanic. The Bible did not say the Ark rested on Mt Ararat, but on the mountains of that area. The site of the Ark's resting place is about 30km south of Mt Ararat, near the border of Turkey and Iran, and not far from a village called Güngören. This is recognized by the Turkish government as the Ark site, and there is road signs indicating this. (Nuh's Ark). Nuh is the Chaldean (Babylonian) name for Noah.

Magnetic tests.

A magnetometer is a device that measures the Earth's magnetic field. (It is normally used to locate submarines under water, where the metal hull, distorts the magnetic field slightly, allowing location to occur.) Magnetometer tests carried out on the area around the Ark site, show distortions, indicating that there is metal present.

Radar testing.

These tests indicate when changes in density occur. This shows a regular pattern, of parallel lines, and cross lines, such as what might be expected from timber bulkheads and beams of a boat-like structure.

Core sample tests.

Some core samples have shown the presence of fossilized timbers, parts of deer antler, along with hairs that have been identified as belonging to a cat, (Leopard) which is not a native of the area. There is also fossilized nails that are square in shape. It is thought these are responsible for the magnetometer readings obtained.

Photographic tests.

Comparisons have been made of aerial photographs taken on different expeditions. These indicate that the surrounding land has slid down the hill. The Ark section in these photographs, however, has not moved, and is also becoming more exposed. The bulk and size of the structure is keeping it firmly in position.

Physical tests.

The length of the Ark is 515ft 6in. The size of Noah's Ark as mentioned in the Bible, Genesis 6:15, *And this is the fashion which thou shalt make it of: The length of the ark shall be three hundred cubits, the breadth of it fifty cubits, and the height of it thirty cubits.* This size is exactly correct, if the Royal Egyptian cubit (524mm) is used, to calculate the length.

Other Clues.

Stabilization - Anchor stones.

Not far from the Ark's resting place there are a number of stones, in a reasonably straight line. These are described as anchor stones. An anchor stone is a large stone, wide in one direction, narrow in another, with a hole at the top, allowing it to be attached to ropes. A number of these would stabilize the vessel, in the huge swells that might be expected. They are many feet in height (8 or more), much bigger than anchor stones that are normally found. These are also many miles (75ml or more) from the nearest sea or ocean. Noah would have released these progressively, to allow the Ark to ride higher in the water, before it came to a rest.

Harmony In New Zealand 2017

That's a wrap! The third Harmony in New Zealand hosted by Gospel Way Outreach was on the weekend of the 24th- 26th of February and what a great one it was! Each harmony so far has been made up of its highlights and its learning curves, but once again we were surely visited from the Lord of hosts over the weekend. Harmony in New Zealand was a wonderful 3 day event kicking off with a musicians only night where those who were performing over the weekend got to sound check and practice with the others who performed. We then had 2 sessions both Saturday and Sunday with a sermonette on Sunday morning. This year we had over 60 musicians participating from all over New Zealand, Australia, and our special guests from America and Canada. As you could expect our church was filled to the brim and resonating a beautiful sound during the congregational singing over the weekend.

This year again we featured Art Doell from the old Canadian Believers of Canada and Mandi Anderson from Texas. They were very much a blessing to have over both on and off stage. Brother Art Doell featured in our first Harmony in New Zealand back in 2015, and was very much enjoyed by both young and old.

It was such a success

we have wanted him back ever since. This year he and his wife Karen blessed us again with their presence. With Bro. Art singing a range of songs from the believers collection of songs with some of his originals that he has since written.

For the first time we also had Mandi Anderson feature at Harmony in New Zealand. Mandi brought an amazing sound with her and the ability to play almost anything from by ear. Mandi blessed us with many songs over the weekend, including 2 songs accompanied by the youth. Her skills to work with the youth was amazing to see, bringing together a range of skills and abilities to include them all in a song of praise and worship in a tight time frame. We will be featuring some highlights from Harmony in New Zealand on our YouTube page, stay tuned for more details or contact brother Greg if you would like a CD/DVD copy of the weekend.

We aimed to accommodate all those who would like to minister in song and praise over the weekend within the 4 services. This year we saw another great range of different styles with the crowd favorite being the Hazledine and Mauchline boys singing harmony with Caleb Ward and Rebecca Mauchline on the piano. They performed the song 'Just A Little Talk With Jesus'. We also had our old faithful favorites singing and playing for us as well and it would be hard to mention them all. This year too we had both Tongan and Hebrew songs, as well as solo instrumental only songs, adding to the diversity of worship. On Sunday morning we had a great little sermon from our wonderful Pastor who recently celebrated his 70th Birthday. We had

another celebration with all the believers who attended on Saturday in appreciation of our Pastor who has ministered the Gospel for the last 34 years.

Of course this lovely weekend wouldn't have been possible without the help and support of our Pastor and the local body of Believers, so on behalf of everyone I wanted to end with a little thank you to all those who helped out over Harmony weekend, from Sister Nancy Alford, Sister Viv Ward and Sis. Eniko Farkas who feed the

Roly Osborne and Br. Timothy O'dea for her great photos and Sis. smooth operation. A big thank you to all those who blessed us with their music, those who participated, an event without you all. We look forward

multitudes over the weekend. To Br. thy Stevens on the sound, Sis. Nadine Paula Ward for organizing another you once again for our special guests cal gifts. I would also like to thank all like this would not have been possible to seeing you all in 2019. Harmony in New Zealand is planning to take break next year and will be back in February 2019 where we pray we will be able to have another great weekend of

praise and worship dedicated to the Lord Jesus. We look forward to seeing you all there next time. God bless you all in the name of our Lord Jesus Christ.
