PAKISTAN MISSIONS

Brethren. God bless you.

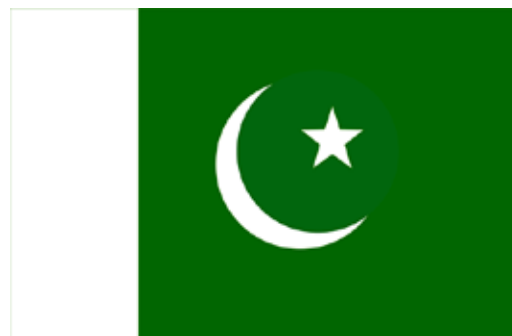

Here is just an update on the work that is progressing in Pakistan. I want to thank first the brethren in NZ who are financing the printing of message books seen in these photos. It would be inappropriate at this time to disclose the donors but the Lord knows and may He bless them mightily.

Over the years Pakistan has been very poorly supplied with message materials given the length of time that the message has been in that nation. The main problem has been the questionable way that some foreign “middle-men” have been utilizing funds for printing books and not being open to an audit to show where all the funds have ended up.

Because of this, a printing company was found in Rawalpindi that could print message books at a fraction of what could be done in the USA and some decidedly more dedicated people have been found that are motivated to get the work done efficiently and transparently with receipts and photos supplied as evidence of where finances have gone.

PAKISTAN MISSIONS

The Seven Church Age book has been printed and 1000 books sent out to the many churches in Pakistan. Also a run of different messages are being translated by people in Pakistan as the foreign translators have proven to be theatrical in their estimations of their worth and unreliable in reality.

A normal message book costs about 19 US cents and the 7

Church Ages cost about \$US1 to print. The books are of a high quality and are being sent out in block supplies. The Seven Seals have already been proof read for translation errors and is in the process of being printed.

Also in Pakistan the supply of micro-SD cards is much cheaper than in western nations. To give you an example, a 16G card can cost up to \$20 in NZ/Aust. The same card in Pakistan is about \$5. So we now source the cards from Pakistan outlets and get the message copied onto them for free.

As technology advances and spreads internationally, there is thankfully no need to become inundated with logistical problems that have hindered getting materials out. Also the risk factor in becoming a vassal of another “supplier entity” is greatly reduced and the brethren can be responsible for their own nation in a more complete way.

PAKISTAN MISSIONS

Ultimately the best scenario is to have all the books financed from within their own nation and not from donations. As the brethren come to understand the Lords pattern of tithes of an offerings being His way to get the blessings, the necessity for foreign donations will decrease. However that is a work in progress.

Should anybody wish to assist with financing the various needs in Pakistan at this time, feel free to contact those that are involved in the work there. Just contact us through the BNL and name will be supplied.

Shalom.

Ethiopia

On May 2, 2017 Brother Talemwa Busobozi travelled to the Wolega region of Western Ethiopia. This trip was inspired by Brother Abebe, one of the translators of the Message in Addis Ababa. Brother Abebe had been burdened for a while, wanting to take the Message to his family; his mother, father and sisters. Their plan was to stop first in a city called Nekemte to minister to Brother Abebe's sister and a Pentecostal man Brother Busobozi had been in touch with for a little over a year.

When they left Addis Ababa, Brother Abebe claimed his family and spoke a word of Faith, "We are going to baptise my family." He actually was so sure that he had requested Brother Bus bring the church baptismal clothes with them.

Following is a first-hand account of the trip:

Brother Abebe is the Brother that went to the same university as Brother Moges in the city of Nazareth. Myself, Brother Paul and Sister Yodit originally went to that city (Nazareth) by inspiration that the Lord had given me after I had seen myself, Paul and Yodit minister to university students at a coffee place near the university gate. This happened exactly and Brother Abebe has since believed and become a wonderful treasure to the Bride. About one year ago Brother Abebe had returned the laptop he was using for translating and said he couldn't translate the Message anymore because he had read where the Prophet called the Roman Catholic Church the Harlot and Protestants the prostitutes. This was hard for him to translate, but gone are those days. Praise the Lord! On this trip, I have watched Brother Abebe preach this same Message he once feared with passion! Talk about the transforming power of God!

Ethiopia

Day 2: Wubitu, a college student and younger sister to Brother Abebe came today to hear the Word of God. As most college students these days, she came dressed in a way you would expect but I loved the humility and fear of God in her. She speaks only Af-
aan Oromo and Brother Abebe translated for me as I spoke to her.

Mainly, I have watched and understood that the approach here that would spark off the heart of the people is different other than the one we have used in the North and other determined by the predominant doctrines in a place. In this case, locally called the Mekane numerous. That means they

exposed to the Justification of Luther and thus to make them see Christ today, you would have to go all the way into the Message.

With Sister Wubitu, we started with the foundation of our faith; what it is, and whether anyone can go in the Rapture if they build another foundation to spoil the foundation that was laid by Paul by believing and teaching false doctrines other than what Paul taught. Upon this basis, we spoke on many things including: Godhead, Baptism, women preachers, deacons, gifts etc. I also made mention that these foundational teachings have been restored to us now through the End Time Gospel Message. This sister was convicted and she started asking questions, but after all her questions were answered, she made her decision to be baptized. It was a heartfelt decision. She started crying while Brother Abebe and I prayed with her.

She rushed to her house, picked changing clothes and returned. Down we went to the baptismal place. Thank God this region is filled with lots of water.

Ethiopia

Immediately after we came out of the water, we started praying and many of the people who were swimming around came to see what was happening. Little did we know God was preparing more souls to hear the Word. Before I could change, we started to preach to them right away. One turned out to be serious and he is organizing for us to minister in his house and has promised that he will call many of his friends. We intend to return to minister to them here in Nekemte after the trip further West.

The parents of Brother Abebe are waiting for us since today. We have to go there and then return to Nekemte after some days. This village is 3 to 4 hours away.

Day 3: We left Nekemte today early in the morning at around 6am and by around mid-day, we arrived in Bube, a village deeper into the Western region of Wolega-Ethiopia.

There's one major town after Nekemte called Gimbi. It is further West and this is where the asphalt stops. Then from Gimbi to Bube it is all gravel road going about 55kms to our destination. No decent lodge, no showers, no good food, no electricity, but the people are the happiest and most welcoming I've ever seen in Ethiopia. They surely are humble and genuine in their hearts and you could see they mean whatever they say and act from the heart. The vegetation looks like Beulah Land. Most people here are farmers of coffee etc.

On arriving at Mr Taera's home (Brother Abebe's father) we found them in the farm. We couldn't get through to them so they didn't know exactly when we would arrive. Nonetheless, they quickly left whatever they were doing and together (him and wife) they sat to listen to the Word. Soon enough, the room was all full with many neighbors who came to hear the Word. These people surely fulfill Amos 8:11...we sat and talked about Christ till late evening.

I began with my testimony of God's leadership to meet their son Brother Abebe, my religious background, introduction to the Message of the Hour and by this time they were surely ready to hear more of what it is that I so cherished that I could forsake my religious privileges (being a son of a priest and living with the Bishop then etc).

Ethiopia

I began with Romans 11 clearly showing the dispensation of the Jews and the Gentiles. How God is now accomplishing with the Gentiles and soon to rapture His Bride whose faith is upon the foundation of the Apostles (1 Cor 3:10-23) and that no other foundation could be laid. We spoke on the teachings of Paul as the Absolute for every gentile Christian believer (Gal 1:8-9.) It was on this basis that I mentioned many major teachings of Christianity and we agreed with them that anyone who would teach different from what Paul taught would be accursed. I asked them to tell me which of the teaching they wished we begin with to review – they all requested we review Baptism first.

Much can be said, but they listened and Mr. Taera (formerly Orthodox and now Lutheran) asked me that if they received this correct Bible teaching and got baptized, they know the new Full Gospel church in their village won't take them in because they require an individual to take a one year Baptism class. He asked what they would do in this case. This sparked me to preach for

about 30 more minutes about sacrifice, faith in God and His Word, the vanity of denominations and their traditions etc. Another question was later asked about the Name and by the time we finished expounding it for them, all were surely convinced. Altogether about 10 or so.

The 60 year or so old Mr. Taera confessed, "All my life I've never heard a minister expound the Word for us so clear like you have, not even 50% of what we have heard today. Please, we need to hear more."

Meanwhile, Brother Abebe would sometimes take turns in expounding the Word for his own people. The Holy Ghost would grip him and all I would feel to do was to let him give it all out, I know he has surely now matured in the Word.

Tomorrow we are meeting all these again at Mr. Taera's home. Pray for us. If one or more receive This, it means the whole village will be against them. We are believing for this entire village to accept the Word. Praise the Lord!

To be continued next month - Please continue to pray for Ethiopia
